Profile Summary

Fresh Computer Science graduate from Kohat University of Science and Technology with a CGPA of 3.62, specializing in backend development using Django, Python, and MySQL. Experienced in developing scalable web applications that have practical uses in the real world. supplemented by real-world experience of working on startups at NEP-NIC KUST, where I developed production-grade websites and stable backend systems. Passionate about leveraging technology to solve real-world issues and currently looking for backend development openings in innovative, growth-oriented environments.

Education

Bachelor of Science in Computer Science (BSCS)

Sept 2021 - Aug 2025

Kohat University of Sciences and Technology, Kohat 26000, KPK, Pakistan

- **Pakistani CGPA:** 3.62 / 4.00
- **Final Year Project:** OncoXpert – AI-Powered Multi-Cancer Detection Platform - Developed the backend for an AI-powered cancer diagnosis and case management platform using **Django and DRF**, building modules for image storage, classification, and ML model integration. Implemented **SimpleJWT authentication, caching, pagination and throttling** to ensure security and scalability. Used optimized MySQL queries to reduce latency.

SKILLS

- **Languages:** Python, JavaScript, HTML, CSS
- **Frameworks & Tools:** Django, React, REST API, SimpleJWT, Postman/Insomnia
- **Databases:** MySQL, MySQL-Lite
- **Other Skills:** Communication, Cross-Team Collaboration, Problem Solving, Detail-oriented Analysis and Research
- **Spoken Languages:** English (C2), Urdu, Pashto

Work Experience

Web Developer (Internship)

March 2023 - Sept 2023

ScentedDreams | NEP-NIC's KUST Startup, Kohat

Designed and developed a custom eCommerce platform for ScentedDreams using Django and React, tailored to the founder's business requirements. Implemented dynamic product listings, secure payment integration, and a fully responsive UI to enable seamless online sales and support brand growth.

Web Developer (Internship)

Sept 2022 - Feb 2023

Hanzail NEP-NIC's KUST Startup, Kohat

Built a responsive React-based portfolio website to enhance the digital presence of Hanzai, a startup focused on teaching Chinese reading and writing to the Pakistani audience in Urdu. Designed a user-friendly interface specifically for language learners, improving accessibility and brand visibility

Management Intern (Internship)

Feb 2022 - Aug 2022

NEP-NIC's KUST Startup, Kohat

Supported NEP-NIC's KUST management as an intern by assisting with administrative tasks and coordinating activities across multiple enrolled startups. Contributed to organizing events, documentation, and communication between founders and NIC staff.
